PROCUREMENT QUALITY REQUIREMENTS

Q-4 Revision D / Quality of Aircraft Assemblies, Parts and Materials

Supplier shall only deliver aircraft assemblies, parts and materials that comply with the following requirements for new, surplus and used articles. Concessions to these requirements may be granted, but only by written authorization following review by the Government's Engineering, Quality Assurance and Contracting Officer's Technical Representatives.

Unless otherwise specified for delivery to the Government, all applicable material test reports, processing, overhaul, repair and maintenance certifications, inspection, test and non-destructive examination results shall be retained for at least 10 years by the supplier, and made available upon request.

Supplier shall ensure that articles conform to all original design and manufacturing requirements for materials, processing, inspection, test, non-destructive examination, marking, packaging, preservation and transportation.

Supplier shall specify their counterfeit parts program and flow down applicable counterfeit parts prevention requirements to their subcontractors.

For each article, the supplier shall identify:

- Manufacturer's part number, and heat, batch or serial number (when applicable).
- Manufacturer's name, date of manufacture and street address of manufacturer's production facility.
- Proof of serviceability by the appropriate depot/organization serviceable tag or by FAA Parts Manufacturing Approval (PMA) or Technical Standard Order Authorization (TSO) Form 8130 accompanying each article.
